Key Facts

Qualification Titles	CFI Level 4 Diploma in Integrative Early Childhood Pedagogy (EYE): Montessori
	CFI Level 4 Diploma in Integrative Early Childhood Pedagogy (EYE): Steiner Waldorf
Qualification Numbers (QAN)	610/4274/2
	610/4276/6
Qualification Type	VRQ
Sector	1.5 Child Development and Wellbeing
Level	4
Rules of Combination	Early Years units 1-10 are mandatory
	All units in the Montessori pathway are mandatory
	All units in the Waldorf pathway are mandatory with the exception of Units 31-34, which are optional
Total Qualification Time	840 hours Montessori pathway (85 credits)
	1300-1560 hours Waldorf pathway (130-156 credits)
Guided Learning Hours	395 hours Montessori pathway
	480-640 hours Waldorf pathway
Minimum age of learners	18
Assessment Methods	Portfolio of evidence
Grading system	Pass/Fail
How long will it take to complete?	These qualifications can be completed within 2 years based on part-time study
Developed by	The qualifications have been developed by CFI with subject-specific expertise provided by Montessori and Waldorf specialists.

Section 1: About this Qualification

1.1 Why take this qualification?

The objective of this CFI Level 4 Diploma in Integrative Early Childhood Pedagogy is to provide the learner with the expertise, skills and professional approach needed to be a Montessori or Waldorf early childhood practitioner. This qualification is also relevant to those engaged in holistic work with children such as childminders, therapists and others working with children under 7 years old, in Montessori, Waldorf and mainstream settings.

Rationale

These qualifications aim to support the learner in developing their understanding of the physical, emotional, cognitive and spiritual developmental needs of young children. The immediate and long term impact of the educating process will be brought into focus for the learner, who will be encouraged to consider their role in supporting every child's right to a healthy and age-appropriate education. The aim is that the learner develops the capacity to encourage children's wellbeing and natural inclination to be active and to learn. Through the use of a rhythmical and repetitive approach, the learner will develop their capacity for the facilitation of creative play and appropriate sensory experience. This will include the knowledge and skills required for creating and maintaining a Montessori or Waldorf Early Childhood environment, which supports the child's developmental needs and equips the child to thrive in contemporary society. The learner will be required to engage in a process of personal and professional development, in order to meet the standards required of a contemporary Montessori or Waldorf early childhood practitioner.

Learners completing these qualifications may proceed directly to work in a Montessori or Waldorf Early Childhood setting as a group leader. As DfE-approved qualifications, which have been assessed as fully meeting the Early Years Educator (EYE) criteria, in force from September 2024, this qualification also qualifies learners to work as qualified members of staff within the Level 3 staff:child ratios in Early Years settings in England. Learners may progress to:

- Work in a Montessori or Waldorf early childhood setting
- The Level 5 Foundation Degree in Montessori Early Childhood Practice
- The Crossfields Institute Level 5 Diploma in Waldorf Early Childhood Studies – Leadership and Management

1.2 What are the entry requirements?

Equality of opportunity is a key and integral part of our vision. We aim to be a truly open, accessible and diverse organisation, and are committed to the principle of equality of opportunity in education. This qualification has been designed to provide access to anyone capable of achieving the required standards, without any unnecessary barriers to entry, access and progression.

The awarding organisation does not determine the method of delivery for these qualifications, and with this in mind the units have been designed for flexibility. Centres must ensure that learners have appropriate access to all resources listed in the units. Learners must also have access to an appropriate setting(s) for their Professional Placement. Blended learning can be utilised as a delivery approach for these qualifications, as long as the sequence of delivery is structured so that the integration of the four thematic areas can enhance the value of the learner's Professional Placement.

Guidelines for entry requirements are listed below:

- learners must be at least 18 years of age
- applicants for whom English is not their first language must be able to demonstrate that they are able to meet the requirements of these qualifications
- as part of the qualifications involves a required Professional Placement, a Disclosure and Barring Service (DBS) check will be required for anyone working with children

Perhaps as important as previous experience and academic accomplishments are the qualities that each individual learner brings to their work. These are essential qualities required of prospective applicants, and include being a patient, empathetic, gentle and skilful role-model, who respects the dignity of each child. Also important is the willingness to engage with the principles and practice of Montessori or Waldorf pedagogy, and in addition, to demonstrate the willingness and skills necessary to give creative purpose and direction to the task of supporting children in their development.

For learners intending to work as Early Years Educators and be counted in the EYFS ratios, a suitable Level 2 English qualification is required. As of January 2024, a Level 2 Maths qualification is only required for managers, who must either hold a suitable Level 2 qualification in Maths or achieve one within two years of starting the position. If a staff member holds a full and relevant Early Years qualification at Level 3 but does not hold a suitable Level 2 English qualification, they can only be counted within the staff:child ratios at Level 2.

See [here](#) for further details.

1.3 What are the assessment methods?

You will create a portfolio of evidence throughout your time working towards these qualifications. This may include:

- observation of practice by experienced tutors
- written and oral assignments
- reflective practice, e.g. a learning journal or self-reflective journals
- peer observation or feedback as witness testimony
- artefacts

The portfolio must be your own work, and centres will be responsible for verifying that work has been authenticated. CFI takes any reports of suspected plagiarism or other forms of malpractice

seriously and will investigate any such reports via the Malpractice Policy which is available on our website.

Note: Plagiarism This means claiming work to be your own which has been copied from someone or somewhere else. All the work you submit must be your own and not copied from anyone else unless you clearly reference the source of your information. This includes the use of AI (please see our AI policy for further information). If there is evidence that your work is copied from elsewhere, it will not be accepted, and you may be subject to a disciplinary procedure.

1.4 What are the professional placement requirements?

These qualifications include a required Professional Placement in an early childhood setting of at least 400 hours for Montessori or at least 100 hours for Waldorf. This should be in a Montessori or Waldorf early childhood setting, or a setting which is working out of a Montessori- or Waldorf-inspired ethos.

This placement forms a central point of practical integration for the knowledge, understanding and skills developed over the course of the training. Centres are required to support learners with mentorship and observation whilst on Professional Placement.

Section 2: Units

2.1 Unit List

This qualification has 34 units in total, each of which contributes to the learner's development of knowledge, understanding and skill.

Units 2-10 are at level 3, are mandatory, and are based on the Early Years Foundation Stage statutory framework published by the Department for Education:

<https://www.gov.uk/government/publications/early-years-foundation-stage-framework--2>

Unit 1 is at level 4 and is mandatory across both pathways.

Units 11-18 are at level 4 and mandatory within the Montessori pathway.

Units 19-30 are at level 4 and mandatory within the Waldorf pathway.

Units 31-34 are optional within the Waldorf pathway.

Unit title	Level	Ofqual ref	Guided Learning Hours (GLH)	Total qualification time (TQT)	Credits
Mandatory Core Units					
Unit 1 - Study Skills	4	J/651/1828	15	20	2
Unit 2 - Child Development	3	K/651/1829	25	40	4
Unit 3 - Early Childhood Curriculum	3	R/651/1830	25	40	4
Unit 4 - Pedagogy	3	T/651/1831	25	40	4
Unit 5 – Early Childhood Assessment in Practice	3	Y/651/1832	10	20	2
Unit 6 - Supporting children with special educational needs (SEND)	3	A/651/1833	25	40	4

Unit 30 - Reflections on Current Trends in Early Childhood Education: from a Waldorf perspective	4	Y/618/8022	15	70	4
Optional Waldorf Pathway Units					

Unit 31 – Inner Development	4	T/618/8030	50	75	6
Unit 32 -The Seasonal Curriculum	4	A/618/8031	30	55	4
Unit 33 – Enhancing Skills and Practice for Storytelling, Puppetry and Circle Time	4	F/618/8032	40	65	5
Unit 34 – Supporting Children with Special Educational Needs and Disabilities (SEND) in an Early Years Setting	4	J/618/8033	40	65	5

Unit 1: Study Skills

Unit reference	J/651/1828	Guided Learning Hours (GLH)	15
Unit level	4	Total Qualification Time (TQT)	20

Unit aim	This unit prepares learners for their work on this qualification by encouraging them to reflect on their own needs as a learner. They will perform a basic needs analysis and consider the skills and sources they will be drawing on over the course of their learning. The unit will also require learners to consider why feedback is valuable and how it is best conducted.
-----------------	---

Learning outcomes	Assessment criteria
The learner will:	The learner can:
1. Understand their own needs as a learner	1.1. Assess areas of this qualification which may present challenges* to them as an effective learner
	1.2. Evaluate their own learning needs and any support they will need
2. Develop effective study practices and organisational skills	2.1. Analyse the skills* they will need to undertake the necessary learning for this qualification
	2.2. Describe how they intend to organise their own learning
	2.3 Outline the sources from which they will draw information for this qualification
3. Be able to use feedback to improve their and others'	3.1. Explain how to give and receive effective feedback

practice	
	3.2. Take part in a feedback process

* This may be in personal, interpersonal, academic or subject-specific areas.

Unit 2: Child Development

Unit code	K/651/1829	Guided Learning Hours (GLH)	25
Unit level	3	Total Qualification Time (TQT)	40
Unit aim	This unit introduces learners to the key principles of child development. Learners will understand how to promote equality of opportunity in early years provision, the underpinning theories, approaches and research in early childhood development. They will be able to provide support to children and babies in their development and promote and positively impact their health and wellbeing.		

Learning outcomes	Assessment criteria
The learner will:	The learner can:
1. Understand how to promote equality of opportunity in early childhood provision	1.1 Explain the importance of the Equality Act (2010) in early childhood provision
	1.2 Explain how to work appropriately with others to provide children and babies with additional support
	1.3 Explain how the use of stereotypes can cause damage
	1.4 Explain how cultural background and family circumstances can impact on babies' and children's learning and development

Learning outcomes	Assessment criteria
The learner will:	The learner can:
2. Understand underpinning theories, approaches and research that underpin early childhood development	2.2 Explain how appropriate evidence-based theories/approaches are important in early childhood provision and can influence practice
3. Be able to support children and babies in their development	3.1 Explain how to support children to develop a positive sense of self
	3.2 Explain how to support children to understand and manage their emotions <i>To include:</i> <i>Differing emotional reactions</i> <i>What may or may not be appropriate</i>
	3.3 Explain how to use co-regulation to support children towards self-regulation when they are experiencing a range of emotions, by providing warm, responsive interactions to help support the development of self-regulation
	3.4 Demonstrate an understanding of the importance of supporting children to form positive attachments with clearly established and age-appropriate boundaries
	3.5 Explain how to support children and babies through transitions and significant events in their lives

Learning outcomes	Assessment criteria
The learner will:	The learner can:
4. Be able to promote and positively impact the health and wellbeing of children and babies	4.1 Interact with babies and children with confidence
	4.2 Give examples of how to implement strategies to encourage babies and children to: • Consume healthy and balanced meals, snacks and drinks • Be physically active through play both indoors and outdoors • Be aware of personal safety and the safety of others • Develop personal hygiene practices, including oral hygiene

Additional Requirements for Delivery

Learners should understand how the Equality Act 2010 promotes education that is appropriate to children's needs and appropriate to fulfilment of potential (<https://www.gov.uk/guidance/equality-act-2010-guidance>).

Learners should know the expected patterns of babies' and children's development from birth to 5 years old, and has an understanding of further development from 5 to 7 years.

Learners should understand babies' and children's development patterns, including:

- cognitive
- speech, language, and communication development physical
- emotional
- neurological and brain development

L03

Transitions and significant events may include:

- moving school
- starting and moving through/between early years settings
- birth of siblings
- moving home

- family breakdown
- living outside the home
- loss of significant people/bereavement
- wider societal events that impact upon their lives
- adoption and care
- adverse childhood experiences and trauma

Learners should also show understanding of the following:

- Self-regulation changes according to a child's age and development. Children are in the early stages of learning to self-regulate and it is something that is developed throughout the early childhood. Co-regulation (the support we provide to children to help them understand, express and regulate their feelings) is a vital building block towards the ability to self-regulate.
- There is a range of evidence-based theories, philosophical approaches and research that underpin early childhood development.
- Personal, social and emotional development (PSED) is crucial for babies and children to lead healthy and happy lives and is fundamental to their cognitive development. The important attachments that shape their social world underpin babies' and children's personal development.
- The learning and development of babies and children may be impacted by their differing cultural and familial backgrounds and circumstances, as well as by their physical, mental and emotional health and wellbeing, and by significant events that may have occurred in their lives.

Unit 3: Early Childhood Curriculum

Unit code	R/651/1830	Guided Learning Hours (GLH)	25
Unit level	3	Total Qualification Time (TQT)	40

Unit aim	In this unit, learners will understand how to plan and deliver appropriate curriculums for children in early years settings. They will support babies and children in developing speech, language and communication and understand how to support children with delays in communication.
-----------------	--

Learning outcomes	Assessment criteria
The learner will:	The learner can:
1. Understand how to plan an appropriate educational programme	1.1 Describe how to plan an appropriate education programme and the steps to consider
	1.2 Use appropriate curriculum practice and support
	1.3 Choose, plan and sequence what all children need to learn
2. Be able to develop and support babies' and children's speech, language and communication	2.1 Use storytelling to support children's speech, language and communication skills
	2.2. Explore vocabulary in wider contexts through conversation and sensitive questioning

Learning outcomes	Assessment criteria
The learner will:	The learner can:
	2.3 Use rhymes and songs to support awareness of sounds
	2.4 Explain the importance of verbal and non-verbal communication to extend learning and development
	2.5 Use pronunciations, words and phrases to help children to catch up with language development
3. Understand how to support children with delays in communication	3.1 Explain how to identify delays in communication
	3.2 Describe appropriate support for babies and children with delays in communication

Additional Requirements for Delivery

Learners should develop knowledge, understanding and skills of the following content:

The early years foundation stage, which sets out the early education curriculum requirements from birth to age 5. These are:

- communication and language
- physical development
- personal, social and emotional development literacy
- mathematics
- understanding the world
- expressive arts and design

LO1

The curriculum should be built around and reflect a child's stage of development, their individual needs, interests and circumstances, and their entitlement to new, important and interesting knowledge.

This knowledge will help prepare children for their future learning and should be embedded within the learning environment in both explicit and implicit ways.

Children are likely to have different levels of prior experience and knowledge. The curriculum should take account of this prior knowledge and be carefully planned and sequenced accordingly. Pedagogical approaches to supporting learning may need to be adapted because of this.

LO2

Communication and language is the cornerstone of an early years curriculum, which can provide all children with an equal chance of success.

The impact of an effective communication and language curriculum shows positive benefits for young children's development, including their spoken language skills, their understanding of language, and their early reading skills, including for children from disadvantaged backgrounds.

LO3

Some children are at an earlier stage of language development and can experience speech and language difficulties.

There are ways to communicate with all children which are appropriate for their stages of development. This may include those who have speech or language differences, such as some SEND or neurodivergent children, and those for whom English is an additional language (EAL).

Unit 4: Pedagogy

Unit code	T/651/1831	Guided Learning Hours (GLH)	25
Unit level	3	Total Qualification Time (TQT)	40

Unit aim	In this unit, learners will understand the range of pedagogical approaches that can be used in early childhood settings, and how they can adapt their teaching to suit the needs of babies and children. They will understand how to respect the needs of children and communicate effectively with them.
-----------------	---

Learning outcomes	Assessment criteria
The learner will:	The learner can:
1. Be able to select and combine pedagogical approaches appropriately	1.1 Explain the importance of using different pedagogical approaches
	1.2 Explain why pedagogical approaches used in their own work with babies and children are effective
2. Be able to adapt pedagogical approaches to suit different needs	2.1 Explain how adaptations to pedagogical approaches can promote and encourage learning
	2.2 Demonstrate an understanding of how to observe the impact of adaptations on babies' and children's learning and experiences

Learning outcomes	Assessment criteria
The learner will:	The learner can:
	2.3. Give an example of how pedagogical approaches could be adapted in the work of an early childhood practitioner
3. Be able to respond to the needs and interests of children	3.1 Explain the importance of responding to the needs of babies and children
	3.2 Demonstrate an understanding of how to apply strategies to develop and extend children's development, learning and thinking
4. Be able to communicate effectively with children	4.1 Explain ways to communicate with children with speech and language difficulties or EAL
	4.2 Give an example of how you might adapt your own communication to support children's development

Additional Requirements for Delivery

Learners will show understanding of the following:

The different pedagogical approaches, such as:

- play
- direct teaching
- adult explanations
- adult modelling
- learning from peers
- guided learning

How to make adaptations (adaptive pedagogy) which promote learning for all.

The way in which the learning environment, both indoors and outdoors, exists as a resource that supports the implementation of the curriculum, and how to utilise and resource the learning environment to help babies and children progress against the planned curriculum.

L03

Responses may include:

- Giving children encouragement
- Introducing them to new interests
- Using strategies designed to develop and extend their development, learning and thinking, including sustained shared thinking

Unit 5: Early Childhood Assessment in Practice

Unit code	Y/651/1832	Guided Learning Hours (GLH)	10
Unit level	3	Total Qualification Time (TQT)	20
Unit aim	In this unit, learners will develop an understanding of assessment and how to carry it out effectively, working with others to plan future development for a baby or child.		

Learning outcomes	Assessment criteria
The learner will:	The learner can:
1. Be able to carry out assessments effectively	1.1 Plan and record assessment outcomes using appropriate methods
	1.2 Work with colleagues to identify efficient approaches to assessment
	1.3 Share results accurately and confidentially in an appropriate manner <i>To include consideration of:</i> <i>The early years foundation stage statutory framework</i> <i>The requirements of the early childhood setting</i>
2. Understand how to use assessment information in forward planning	2.1 Explain how to plan the next stages of a child's learning with the key person, colleagues and parents/carers

Learning outcomes	Assessment criteria
The learner will:	The learner can:
	2.2 Explain how to use information from assessment to adjust curriculum and plans

Additional Requirements for Delivery

Learners will show understanding of the following:

The importance of assessment in helping parents, carers and practitioners to recognise children's progress, understand their needs, and to plan and provide activities and support. Assessment is about noticing what children can do and what they know. It is not about lots of data and evidence. It should not involve taking lots of time away from teaching and supporting children or have a disproportionate impact on workload.

The integral part that ongoing (formative) assessment plays in the learning and development process.

Making decisions about when and why to carry out accurate and proportionate assessment.

The range of different assessment methods and techniques, which inform what we know about children's progress and the planning cycle, and should be based on age and stage of babies' and children's development.

The benefits and limitations of assessment.

The key stages in assessing children's progress, including the progress check at age 2, the reception baseline assessment, the early years foundation stage profile and the value these have for:

- the baby or child
- the parents or carers
- curriculum adaptation
- the early childhood setting and key stakeholders in planning the next steps

Unit 6: Supporting children with special educational needs and disability (SEND)

Unit code	A/651/1833	Guided Learning Hours (GLH)	25
Unit level	3	Total Qualification Time (TQT)	40
Unit aim	In this unit, learners will understand the relevant requirements related to children with SEND, and how to promote and implement strategies for supporting babies and children with SEND.		

Learning outcomes	Assessment criteria
The learner will:	The learner can:
1. Understand relevant statutory and non-statutory requirements related to children with SEND	1.1 Explain how the early years foundation stage statutory framework supports the care and education of babies and children with SEND
	1.2 Explain how the SEND code of practice supports the care and education of babies and children with SEND
	1.3 Give an example of how these requirements could be applied in the work of an early childhood practitioner

Learning outcomes	Assessment criteria
The learner will:	The learner can:
2. Be able to promote and implement strategies for supporting babies and children with SEND	2.1 Explain how to work with others, including parents and carers, to develop strategies for supporting children with SEND
	2.2 Demonstrate an understanding of how to promote and encourage a working environment that values and respects the individual development needs of babies and children with SEND
3. Be able to support babies and children with SEND	3.1 Plan for a child's care plan including initial assessment, implementation and ongoing review
	3.2 Give examples of how to use specialist aids, resources and equipment where appropriate

Additional Requirements for Delivery

Learners will develop knowledge, skills and understanding in the following content areas:

The entitlement that children and young people have to a quality education, one that is appropriate to their needs, promotes high standards and the fulfilment of potential.

The 4 general areas of need, and how to balance these against a detailed understanding of an individual baby or child's needs:

- communication and interaction
- cognition and learning
- social, emotional and mental health
- physical and sensory needs

Appropriate strategies for supporting a baby or child with SEND.

The fact that a delay in a baby or a child's learning and development does not necessarily indicate a learning difficulty or disability that requires special educational provision, and may be due to a gap in a baby or child's knowledge and understanding.

Awareness that difficult or withdrawn behaviour does not necessarily mean that a baby or child has SEND. There are specialist aids, resources, and equipment available to support babies and children with SEND.

Unit 7: Safeguarding

Unit code D/651/1834 **Guided Learning Hours (GLH)** 10

Unit level 3 **Total Qualification Time (TQT)** 20

Unit aim In this unit, learners will understand the requirements for safeguarding of babies and children and how these relate to their own and others' responsibilities in recognising and reporting concerns.

Learning outcomes	Assessment criteria
The learner will:	The learner can:
1. Understand requirements for safeguarding of babies and children	1.1 Explain how to recognise when a baby or child is in danger of risk of abuse
	1.2 Explain the actions to take to protect babies and children from abuse
2. Understand statutory and non-statutory requirements for safeguarding	2.1 Explain the importance of the current statutory and non-statutory requirements for safeguarding
	2.2 Explain how to find out about information related to safeguarding
	2.3 Explain how statutory and non-statutory requirements apply to the work of an early childhood practitioner

Learning outcomes	Assessment criteria
The learner will:	The learner can:
	2.4 Describe the key elements of Ofsted's Whistleblowing Policy
3. Be able to act on responsibilities related to safeguarding	3.1 Explain the importance of safeguarding for their own and others' roles
	3.2 Explain how to report a safeguarding issue
	3.3 Explain why confidentiality of information is important

Additional Requirements for Delivery

Learners will develop knowledge, skills and understanding in the following content areas:

The importance of safeguarding and security systems in keeping babies and children safe.

Understanding their own role and responsibilities, including appropriate supervision of others, in relation to safeguarding and security, including child protection, duty of care, reporting and confidentiality of information.

Knowing about employer, local and national safeguarding policies and procedures as set out in statutory and non-statutory guidance and the need to stay updated on changes to legislation.

Knowing the signs of harm and the different types of abuse and what these are, including but not limited to:

- Neglect
- Physical
- Emotional
- Online
- Domestic
- Sexual abuse

Relevant guidance includes:

Early years foundation stage (EYFS) statutory framework

<https://www.gov.uk/government/publications/early-years-foundation-stage-framework--2>

Keeping children safe in education

<https://www.gov.uk/government/publications/keeping-children-safe-in-education--2>

Working together to safeguard children

<https://www.gov.uk/government/publications/working-together-to-safeguard-children--2>

Prevent duty guidance

<https://www.gov.uk/government/publications/prevent-duty-guidance>

Reporting concerns and whistleblowing about children's social care services

<https://www.gov.uk/government/publications/whistleblowing-about-childrens-social-care-services-to-ofsted/sharing-concerns-and-information-with-ofsted-about-childrens-social-care-services>

Unit 8: Health, wellbeing and safety

Unit code	F/651/1835	Guided Learning Hours (GLH)	20
Unit level	3	Total Qualification Time (TQT)	30

Unit aim	In this unit, learners will be able to demonstrate how they manage health and safety, the safe storage and sharing of confidential information about babies and children and how to promote and support the health and wellbeing of babies and children in an early years setting.
-----------------	--

Learning outcomes	Assessment criteria
The learner will:	The learner can:
1. Be able to act on their own responsibilities in relation to health and safety	1.1 Carry out risk assessments and risk management in line with employer, local and national requirements and policies and procedures 1.2 Demonstrate an understanding of the importance of responding to and taking appropriate action in relation to events and emergency situations <i>Must include:</i> • <i>Signs and symptoms which may indicate that a child is injured, unwell (including common childhood illnesses and allergies) or in need of urgent medical or dental attention.</i> • <i>A non-medical incident or emergency</i> • <i>Identifying risks and hazards</i> • <i>Receiving, storing, recording, administering and the safe disposal of medicines</i>

Learning outcomes	Assessment criteria
The learner will:	The learner can:
	1.3 Demonstrate an understanding of how to implement effective strategies for preventing and controlling infection <i>Must include:</i> • <i>Handwashing</i> • <i>Food hygiene</i> • <i>Dealing with spillages safely</i> • <i>Safe disposal of waste</i> • <i>Using PPE</i> • <i>Knowledge of childhood illnesses and immunisation</i> • <i>Exclusion periods for infectious diseases</i>
	1.4 Show understanding of the importance of using equipment, furniture and materials safely and the dangers of not doing so <i>Must include following the manufacturer's instructions and the setting's requirements with regards to sleep safety.</i>
	1.5 Show understanding of how to assist others in the safe use of: • Equipment • Furniture • Materials

Learning outcomes	Assessment criteria
The learner will:	The learner can:
2. Be able to take responsibility in relation to confidentiality of information	2.1 Maintain accurate and coherent records and reports <i>This could include:</i> • <i>Medication requirements</i> • <i>Special dietary needs</i> • <i>Planning</i> • <i>Observation and assessment</i> • <i>Health, safety and security</i> • <i>Accidents and near misses</i> • <i>Daily registers</i>
	2.2 Explain how records and reports would be shared appropriately with others
	2.3 Explain how to share information with parents and carers about: • The importance of healthy balanced diets • Looking after teeth and oral health • Being physically active
3. Be able to act on your own responsibilities in relation to promoting the health and wellbeing of babies and children	3.1 Explain, plan and carry out respectful care routines appropriate to the development, stage, dignity and needs of the child including: • Eating • Nappy-changing procedures • Potty and toilet training • Care of skin, teeth and hair • Rest and sleep provision
	3.2 Explain how to use current dietary guidance for early years

Learning outcomes	Assessment criteria
The learner will:	The learner can:
	3.3 Explain the importance of a healthy, balanced diet and physical activity
	3.4 Explain the most up-to-date advice on weaning provided by the NHS

Additional Requirements for Delivery

Learners will show understanding of the following:

Legal requirements

- The legal requirements, statutory guidance and other non-statutory guidance on health and safety, security, and confidentiality of information that must be adhered to.
- Carrying out risk assessments and risk management in line with employer, local and national requirements policies and procedures.

Health and well being

- It is important to know what the signs and symptoms are which may indicate that a child is injured, unwell (including common childhood illnesses and allergies) or in need of urgent medical or dental attention.

Diet and care

- There are different stages of weaning, and it is important to keep knowledge up-to-date, including knowledge of food allergies and anaphylaxis.
- Mealtimes can be a high-risk environment for babies and young children in regard to choking, the signs of choking, that choking can be completely silent, therefore children should be supervised closely and effectively when eating.
- Food prepared must be suitable for the age and development of babies and children, and learners must refer to the most up-to-date guidance.

Unit 9: Working with others

Unit code	H/651/1836	Guided Learning Hours (GLH)	20
Unit level	3	Total Qualification Time (TQT)	30
Unit aim	In this unit, learners will understand the importance of working collaboratively with others in an early years setting, including parents, carers, colleagues, professionals and agencies.		

Learning outcomes	Assessment criteria
The learner will:	The learner can:
1. Be able to work co-operatively with others	1.1 Work co-operatively and communicate effectively with key persons, colleagues, other professionals and agencies
	1.2 Work effectively and confidently with Ofsted requirements
	1.3 Explain the importance of the Early Years Inspection Framework
2. Be able to work in partnership with parents and carers	2.1 Demonstrate an understanding of how to provide support to parents/carers in helping them recognise and value the contributions they make to their child's development

Learning outcomes	Assessment criteria
The learner will:	The learner can:
	2.2 Explain how to encourage parents to take an active role in their baby's or child's care, play, learning and development
	2.3 Explain how to provide additional support for babes and children where they lack support from parents/carers
3. Understand the roles and responsibilities within the early years setting	3.1 Explain the roles and responsibilities of other agencies and professionals who work with and support the setting and children
	3.2 Explain key statutory and non-statutory guidance that supports working within an early childhood setting

Additional Requirements for Delivery

Learners will show understanding of the following:

- The importance of developing and maintaining good relationships and partnerships in an early childhood setting to ensure the needs of all children are met.
- Parent and carer engagement is consistently associated with ensuring their child's subsequent academic success.
- Effective engagement with parents and carers is important and that working effectively with parents and carers may be challenging and is likely to require sustained effort and support.
- Setting leaders need to collaborate and work with colleagues and other relevant professionals within and beyond their setting to ensure babies and children progress well in their learning.
- It is important to be an advocate for the child's learning and development, parental and carer engagement, the home learning environment, and their roles in early learning.

- There are other agencies and professionals that work with and support early childhood settings and children, both statutory and non-statutory, including local authorities and other relevant agencies and bodies. These all have different roles and responsibilities.
- Ofsted is responsible for the regulation and inspection of early childhood provision. It carries out inspections and reports on the quality and standards of provision.

Relevant guidance includes:

Ofsted's early years inspection framework

<https://www.gov.uk/government/publications/early-years-inspection-handbook-eif>

Education inspection framework (EIF)

<https://www.gov.uk/government/publications/education-inspection-framework>

Early years foundation stage (EYFS) statutory framework

<https://www.gov.uk/government/publications/early-years-foundation-stage-framework--2>

Keeping children safe in education

<https://www.gov.uk/government/publications/keeping-children-safe-in-education--2>

Working together to safeguard children

<https://www.gov.uk/government/publications/working-together-to-safeguard-children--2>

Prevent duty guidance

<https://www.gov.uk/government/publications/prevent-duty-guidance>

Unit 10: Own role and practice

Unit code	J/651/1837	Guided Learning Hours (GLH)	10
Unit level	3	Total Qualification Time (TQT)	20
Unit aim	In this unit, learners will understand the importance of communicating effectively and working co-operating with others in an early years setting. They will understand the policies and procedures that must be adhered to within their setting, and understand their own role and responsibilities and those of colleagues and professionals working in the early years setting.		

Learning outcomes	Assessment criteria
The learner will:	The learner can:
1. Be able to communicate effectively	1.1 Use and model good communication skills
	1.2 Demonstrate a good command of spoken and written English
2. Be able to work co-operatively with others	2.1 Explain how to foster a culture of mutual support, teamwork and continuous improvement within your setting
	2.2 Explain how to discuss sensitive issues within your setting
	2.3 Explain the importance of effective supervision within your setting

Learning outcomes	Assessment criteria
The learner will:	The learner can:
	2.4 Explain how to support or challenge the practice of colleagues
3. Understand policies and procedures within the work setting	3.1 Demonstrate understanding of the importance of following procedures in the work setting, including: • <i>Reporting</i> • <i>Whistleblowing</i> • <i>Protecting and promoting the welfare of children</i> • <i>Safeguarding</i> • <i>Confidentiality</i> • <i>Information sharing</i> • <i>Use of technology</i> • <i>Referring development concerns</i> • <i>Protecting practitioners</i>
	3.2 Explain how policies and procedures are reviewed and updated
4. Understand their own role, responsibilities and expected behaviours	4.1 Explain their own role, responsibilities and expected behaviours
	4.2 Explain the roles of colleagues in the setting and team
	4.3 Seek feedback from others to identify and support career development goals
	4.4 Explain how their own and others' behaviour can impact the development of babies and children

Learning outcomes	Assessment criteria
The learner will:	The learner can:
	4.5 Explain the importance of role-modelling positive behaviours

Additional Requirements for Delivery

Learners will show understanding of the following:

- There are expected behaviours in a professional and early childhood setting.
- A level 3 Early Years Educator may be expected to supervise staff or lead a setting. Supervision is an opportunity for staff to discuss any issues, identify solutions to address issues as they arise and receive coaching to improve their personal effectiveness. Effective supervision provides support, coaching and training for the practitioner and promotes the interests of babies and children.
- There are procedures that must be adhered to in the work setting:
 - reporting
 - whistleblowing
 - protecting and promoting the welfare of children
 - safeguarding
 - confidentiality
 - information-sharing
 - use of technology
 - referring development concerns
 - protecting practitioners, for example media and online presence
 - staff health and safety, including mental health and wellbeing support
- Engaging in reflective practice and evidence-based, continuous professional development can improve own skills, practice, and subject knowledge, increase career opportunities and help children's academic outcomes, especially in areas of disadvantage.
- Respecting and promoting diversity and inclusion, cultural differences and family circumstances is an important part of the role.

Relevant guidance includes:

Inspecting safeguarding in early years, education and skills settings

(<https://www.gov.uk/government/publications/inspecting-safeguarding-in-early-years-education-and-skills>)

Education inspection framework (EIF) (<https://www.gov.uk/government/publications/education-inspection-framework>)

Ofsted inspections: what early years providers and practitioners need to know
(<https://www.gov.uk/government/publications/ofsted-eif-inspections-and-the-eyfs>)

Unit 11: Becoming a Montessori Educator

Unit reference	K/651/1847	Guided Learning Hours (GLH)	20
Unit level	4	Total Qualification Time (TQT)	65

Unit aim	In this unit, learners will explore the fundamental concepts of Dr Montessori's principles, the way in which Montessori philosophy has evolved through the years, whilst remaining true to the original observations. Learners will gain a solid foundational knowledge to ensure their own practice is fully informed. Their practice will be developed by learning how to effectively reflect on their own role using Montessori principles and philosophy.
-----------------	---

Learning outcomes Assessment criteria	
The learner will:	The learner can:
1. Understand the fundamental principles of Montessori Philosophy	3.1 Evaluate the main points of the Montessori philosophy
	3.2 Critically analyse elements of Montessori's philosophy
2. Demonstrate knowledge of Montessori education in an historical context	2.1. Summarise the chronology of Montessori education
	2.2. Analyse how Montessori education fits within a national and/or international educational context
3. Understand how Montessori education has evolved	3.1. Analyse elements of Montessori education which have remained consistent over the years, and those which have evolved

	3.2. Evaluate Montessori education in the context of the demands of modern education and life
4. Explore their interaction with Montessori philosophy within their own practice	4.1. Critically reflect on how Montessori philosophical ideas and how it relates to their own beliefs on education
	4.2. Reflect on how their own practice aligns with Montessori philosophy

Unit 12: Montessori Pedagogy

Unit reference	L/651/1848	Guided Learning Hours (GLH)	20
Unit level	4	Total Qualification Time (TQT)	65
Unit aim	This unit aims to provide learners with an understanding of the ways in which Montessori pedagogical approaches relate to the wider context of early childhood studies. Students will explore key child development theories, with particular emphasis being placed on the concept of sensitive periods, and will develop their awareness of how Dr. Montessori's work fits into the development of early childhood education. The fundamental principles of Montessori will be fully explored, as well as the benefits to children who experience a Montessori education.		

Learning outcomes	Assessment criteria
The learner will:	The learner can:
1. Demonstrate knowledge of child development through an understanding of relevant theories	1.1 Evaluate a variety of influential child development theories
	1.2 Analyse how the current Early Years Standards* are informed by child development theories
	3.3 Compare and contrast established theories of child development with Montessori pedagogy
2. Understand the importance of	2.1. Evaluate Dr. Montessori's concept of

sensitive periods within the Montessori environment	sensitive periods
	2.2. Critically evaluate the ways in which the Montessori approach integrates the concept of sensitive periods in a child's development
	2.3. Analyse how the use of Sensorial Materials reflects the sensitive periods and facilitates a child's development
3. Understand how Practical Life informs child development in the Montessori environment	3.1. Analyse how Practical Life is used to: • Educate children's movements to be geared to a purpose • Develop children's ability to concentrate on a task • Facilitate children's learning to carry out a series of steps in sequence • Facilitate children's learning to care for the environment¹
4. Understand how Cosmic Education can improve the child's knowledge and understanding of the world around them	4.1 Evaluate the principles of Cosmic Education
	4.2 Apply knowledge of Cosmic Education in practice during the placement

* Or, in non-UK settings, equivalent national requirements for early years education

¹ Lillard, A. S. (2005). Montessori: The Science Behind the Genius. Oxford University Press.

Unit 13: The Role of the Montessori Educator

Unit reference	M/651/1849	Guided Learning Hours (GLH)	40
Unit level	4	Total Qualification Time (TQT)	100
Unit aim	The Montessori teacher's ability to respond sensitively to children's needs is a cornerstone of Montessori education. This unit will reflect the learning undertaken in the Montessori placement. Learners will understand and perform the role of the Montessori Educator within the setting itself, honing and utilising their educator skills to facilitate effective learning. Through practice, experience and reflection, they will become competent at facilitating the Montessori environment, and will embody the qualities of a positive role model throughout their placement, remembering that their learning is part of the child's educational journey.		

Learning outcomes	Assessment criteria
The learner will:	The learner can:
1. Be able to define the importance of the Montessori Educator within the environment	1.1. Evaluate the Montessori principles of the role of the Educator
	1.2. Analyse the central importance of consistently demonstrating kindness, warmth and sensitivity towards children
	1.3. Reflect on the importance of the Montessori Educator, during the placement
2. Demonstrate skills of a Montessori Educator	2.1. Design and facilitate effective activities within the Montessori environment during the placement
	2.2. Create an environment conducive to learning within the Montessori setting

	during the placement
	2.3. Critically reflect on own learning and improvement of practice, during the placement
3. Deliver Montessori lessons through established techniques and dramatisation	3.1 Analyse the principles behind lesson delivery techniques and dramatisation
	3.2 Develop skills to deliver Montessori lessons through dramatisation and other techniques

Unit 14: Understanding the Montessori Curriculum

Unit reference Y/651/1850 **Guided Learning Hours (GLH)** 20

Unit level 4 **Total Qualification Time (TQT)** 60

Unit aim In this unit, learners will explore the depth and breadth of the Montessori early education curriculum, and its interrelationship between time and topic. Movement serves real and applicable goals within the Montessori Environment, and the learner will incorporate this principle within an understanding of the Montessori approach to all areas of the curriculum. Learners will explore the building blocks of the curriculum, incorporating such principles as developing concentration, or 'normalisation' successfully through carefully-structured children's activities – and in doing so will develop a solid understanding of how the Montessori approach nurtures children's acquisition of numeracy, literacy and the arts.

Learning outcomes	Assessment criteria
The learner will:	The learner can:
1. Understand how the Montessori curriculum fulfils and extends the requirements of the National Early Years Standards*	1.1. Analyse the Montessori approach to numeracy and arithmetic
	1.2 Analyse the Montessori approach to literacy
	1.3 Analyse the Montessori approach to creativity and the arts
	1.4 Analyse and apply Montessori values which uphold the setting's equality, diversity and inclusion policies

2. Apply the Montessori approach to Practical Life	2.1. Facilitate effective Practical Life activities during the placement
	2.2. Maintain a healthy and safe environment in Practical Life during the placement

* Or, in non-UK settings, equivalent national requirements for early years education

Unit 15: Understanding and Delivering Montessori Presentations

Unit reference A/651/1851 **Guided Learning Hours (GLH)** 30

Unit level 4 **Total Qualification Time (TQT)** 70

Unit aim In this unit, learners will explore the importance of presentations, and how presentations can inspire children, encouraging their natural love of learning. They will connect the Montessori method of presentations to the learning of key elements of the early years curriculum. In addition, they will develop their presentation skills and use reflective practice to improve their presentations during the placement.

Learning outcomes	Assessment criteria
The learner will:	The learner can:
1. Understand the importance of presentation within the Montessori environment	1.1. Demonstrate development of their presentation skills during the placement
	1.2. Deliver Montessori presentations on all areas of the curriculum during the placement
	1.3 Critically reflect on their own practice to improve presentation skills
2. Use Montessori presentations to facilitate learning in numeracy and arithmetic	2.1. Analyse the Montessori principles that underpin development in numeracy and arithmetic
	2.2. Develop skills to present Montessori lessons that include numeracy and arithmetic

	2.3. Deliver presentations to develop numeracy and arithmetic during the placement
3. Use Montessori presentations to facilitate learning in literacy	3.1. Analyse the Montessori principles that underpin development in literacy
	3.2. Develop skills to present Montessori lessons that include literacy
	3.3. Deliver presentations to develop literacy during the placement
4. Use Montessori presentations to facilitate learning in creativity and the arts	4.1. Analyse the Montessori principles that underpin development in creativity and the arts
	4.2. Develop skills to present Montessori lessons that include creativity and the arts
	4.3. Deliver presentations to develop creativity and the arts during the placement

Unit 16: Understanding the Montessori Materials

Unit reference	D/651/1852	Guided Learning Hours (GLH)	30
Unit level	4	Total Qualification Time (TQT)	70
Unit aim	This unit aims to give students insight into the importance of Montessori materials. Originally developed, field-tested and honed over many decades, Montessori materials were created alongside her ideas about how to teach children particular concepts, showing an abstract concept to the hand, so it can be revealed to the mind. They are integral to the practice of Montessori education and a pivotal part of the Montessori learning environment. During the course, students will learn the principles behind the application of these materials. The placement will be an ideal opportunity to develop this knowledge further and apply it practically within the Montessori setting.		

Learning outcomes	Assessment criteria
The learner will:	The learner can:
1. Understand the importance of the materials within the Montessori environment	1.1 Evaluate the principles behind where and how the materials are kept within the Montessori environment, and their purpose
	1.2 Analyse the importance of organisation within the Montessori environment, with reference to the materials
	1.3 Familiarise themselves with the materials during the placement
2. Understand the placement, process and use of the Montessori materials	2.1. Demonstrate the logical placement and use of materials within the Montessori

	environment
	2.2. Demonstrate skills to facilitate learning with, and understand the children's connection to, the materials
3. Understand how the Montessori materials promote learning and tap into sensitive periods across the relevant curriculum areas	3.1. Critically evaluate how the materials reflect the sensitive periods and promote child development
	3.2. Demonstrate the correct use of the materials in promoting learning and encouraging a child's interests during their sensitive periods, during the placement
	3.3. Analyse how the treatment of materials, by both educators and children, is important to the value of respecting others and honouring the community

Unit 17: Teaching and Observing in the Montessori Environment

Unit reference	F/651/1853	Guided Learning Hours (GLH)	30
Unit level	4	Total Qualification Time (TQT)	70
Unit aim	This unit will introduce the practical applications of the learners' understanding of the Montessori approach, helping children to create constructive work cycles. This unit will be completed as part of the placement. As Montessori stated, "mental development must be connected with movement and be dependent on it." Practical Life activities are foundational to Montessori Education, and learners will be able to apply their knowledge of Practical Life to enable children to carry out organised sequences of activity, set in a practical context, which employ the body in the service of the mind, and which are attuned to the child's attention to precision. Sensorial Materials, central to this principle of movement and cognition, will be explored and understood by the learner.		

Learning outcomes	Assessment criteria
The learner will:	The learner can:
1. Demonstrate how the Montessori approach is valuable in supporting children through change and transitions	1.1. Analyse the ways in which the Montessori approach helps children through change and transitions
	1.2 Apply their understanding of how to help children through change and transitions during the placement
2. Develop the observational acuity of a Montessori practitioner	2.1 Critically evaluate the Montessori methods of observation and its importance to the approach

	2.2 Analyse the differences between subjective and objective observations
	2.3 Ensure observations are acted upon and followed through, using an action plan and appropriate documentation
	2.4 Improve their observation skills through reflective practice

Unit 18: Reflective Practice for Montessori Teachers

Unit reference H/651/1854 **Guided Learning Hours (GLH)** 20

Unit level 4 **Total Qualification Time (TQT)** 40

Unit aim In this unit learners will reflect on all they have learned about Montessori teaching and principles. In addition, they will develop and maintain their own reflective practice. They will ensure that they dedicate time and energy into reflecting on what they do well as a Montessori Educator, and what they can do to improve and develop their practice, setting goals for their ongoing and future development in the role.

Learning outcomes	Assessment criteria
The learner will:	The learner can:
1. Be able to reflect on their own understanding of Montessori principles	1.1 Analyse gaps in their own knowledge and understanding of Montessori principles
	1.2 Evaluate and demonstrate how they will respond to any gaps where they exist
	1.3 Effectively formulate a series of clear goals for their own future development as a practitioner
2. Be able to demonstrate an ability to reflect on their role as a Montessori	2.1 Explain the importance of reflection as an effective Montessori Educator

practitioner	2.2. Demonstrate routine and effective use of reflective practice to improve and develop their own practice
	2.3. Critically reflect on their own progress throughout the course and during the placement

Unit 19: The Waldorf Concept of Child Development: Birth to Seven Years

Unit reference	T/618/8013	Guided Learning Hours (GLH)	70
Unit level	4	Total Qualification Time (TQT)	180
Unit aim	This unit introduces the learner to a comprehensive overview of the Waldorf approach to child development from birth to the age of seven years.		

Learning outcomes	Assessment criteria
The learner will:	The learner can:
1. Understand the Waldorf concept of holistic child development from birth to 3 years and how to implement this	1.1. Discuss the Waldorf concept of holistic child development from birth to 3 years
	1.2 Discuss how to implement the Waldorf concept of holistic child development from birth to 3 years in practice
2. Understand the Waldorf concept of holistic child development from 3 to 5 years and be able to contextualise and implement this	2.1. Discuss the Waldorf concept of holistic child development from 3 to 5 years
	2.2. Discuss how to implement the Waldorf concept of holistic child development from 3 to 5 years in practice
	2.3. Evaluate strategies for the promotion of positive behaviour development from 3 to 5 years.
3. Understand the Waldorf concept of holistic child development from 5 to 7 years and be able to contextualise this	3.1. Discuss the Waldorf concept of holistic child development from 5 to 7 years

Learning outcomes	Assessment criteria
The learner will:	The learner can:
4. Be able to use self-reflective practice to develop their own understanding of the Waldorf approach to holistic child development from birth to seven years	4.1 Use self-reflective practice to identify areas for further development in your own understanding of holistic child development from birth to 7 years

Additional requirements for delivery

The main topics covered in this unit are:

- pre-birth influences
- environmental influences
- child development from birth to 7 years
- Waldorf provision for birth to 7 years
- Waldorf concept of supporting healthy child development from birth to 7 years
- using self-reflective practice to develop understanding of holistic child development from birth to 7 years

This includes:

Rudolf Steiner's viewpoint of the path to birth; development of walking, talking and thinking in the first three years; oppositional defiance at age 3; developing readiness for group play and activities. This will include reference to:

- Waldorf provision for day care: the intention and practice
- Waldorf provision for Parent and Child groups: the intention and practice
- The Waldorf principles of the education of the will, imitation and example, rhythm and repetition, care of the senses and creative play and how to implement these principles
- The ability to recognise in practice the impact on children's learning and development of these principles

The Waldorf early childhood approach to enabling positive behaviour including and supporting the journey towards self-regulation.

Significant changes in child development after age 5 including:

- ability to self-regulate.
- changing relationship to the teacher, including the role of attachment.
- changes in play.

Contemporary research relevant to child development (birth to 7 years).

Resources

- Room facilities appropriate to a variety of group learning modes
- Course hand-outs and library resources
- Case study materials
- Audio-visual resources
- Access to IT facilities

Assessment guidance

To ensure that the full range of knowledge, understanding and skills being developed in this unit can be demonstrated, a diversity of assessment methods which support the individual learner's holistic development is encouraged. The assessment criteria contain the expectation that critical thinking skills, understanding and application will develop progressively.

Learners should primarily be assessed through written assignment and self-reflective accounts, although other assessment methods may be used to demonstrate the learner's holistic development.

All assessment criteria must be achieved for learners to pass the unit. All assessment is carried out internally by tutor assessors on a pass or refer basis.

Unit 20: Working with older children in a Waldorf Early Childhood setting, school readiness and transition preparation

Unit reference	J/651/1855	Guided Learning Hours (GLH)	10
Unit level	4	Total Qualification Time (TQT)	30
Unit aim	This unit introduces the approach required of the Waldorf early childhood practitioner to support the child's holistic development from 5 to 7 years and their transition into school. It aims to engage the learner in understanding how to identify key signs of school readiness from the Waldorf viewpoint.		

Learning outcomes	Assessment criteria
The learner will:	The learner can:
1. Understand how to implement the Waldorf concept of holistic child development from 5 to 7 years	1.1. Discuss how to implement the Waldorf concept of holistic child development from 5 to 7 years in practice
	1.2 Evaluate strategies for the promotion of positive behaviour from 5 to 7 years
2. Understand the Waldorf concept of school readiness	2.1. Analyse the Waldorf concept of school readiness
	2.2. Contrast the Waldorf concept of school readiness with the current mainstream assessment of school readiness

Additional requirements for delivery

The main topics covered in this unit are:

- the Waldorf concept of school readiness
- implementing the Waldorf concept of holistic child development from 5 to 7 years
- enabling positive behaviour

This includes:

- the child moving from imitation to engaging with authority
- appropriate activities for 5 to 7 year-olds, i.e. artistic and domestic activities
- ways of supporting children in the transition between a Waldorf early childhood setting and Waldorf school or another school/setting not based on Waldorf principles
- the ability to recognise in practice the impact on children's learning and development of this approach to working with children 5- to 7-years old

Resources

- Room facilities appropriate to a variety of group learning modes
- Course hand-outs and library resources
- Case study materials
- Audio-visual resources
- Access to IT facilities

Assessment guidance

To ensure that the full range of knowledge, understanding and skills being developed in this unit can be demonstrated, a diversity of assessment methods which support the learner's holistic development is encouraged. The assessment criteria contain the expectation that critical thinking skills, understanding and application will develop progressively.

Learners will primarily be assessed through written assignment and self-reflective accounts, although other assessment methods may be used to demonstrate the learner's holistic development.

All assessment criteria must be achieved for learners to pass the unit. All assessment is carried out internally by tutor assessors on a pass or refer basis.

Unit 21: Waldorf Early Childhood Education in the Context of the whole Waldorf Pedagogical Approach

Unit reference	L/618/8017	Guided Learning Hours (GLH)	10
Unit level	4	Total Qualification Time (TQT)	60
Unit aim	This unit aims to support the learner in understanding the Waldorf Early Childhood approach, by considering it in the context of the full Waldorf curriculum and pedagogical approach from 7 to 18 years.		

Learning outcomes	Assessment criteria
The learner will:	The learner can:
1. Understand the relationship between the Waldorf early childhood educational approach and Waldorf pedagogical approaches post-7 years	1.1. Explain the relationship between the Waldorf early childhood educational approach and Waldorf pedagogical approaches post-7 years
2. Understand how the Waldorf concept of child and young adult development is applied in a Waldorf School	2.1. Identify how the Waldorf concept of child development from 7 to 14 years is applied in the Waldorf Lower School curriculum
	2.2. Identify how the Waldorf concept of child development from 14 to 18 years is applied in the Waldorf Upper School curriculum
	2.3. Explain the Waldorf approach to supporting the child's transition to Upper School
	2.4. Explain Waldorf pedagogical approaches to the promotion of positive behaviour in children aged 7 to 18 years

Additional requirements for delivery

The main topics covered in this unit are:

- the Waldorf concept of development from 7 to 18 years
- the Waldorf concept of child and young adult development from 7 to 18 years, when applied in a Waldorf School
- support for transition into upper school around age 14
- reflecting on the interrelationship between the different stages of the Waldorf School curriculum in supporting healthy child development
- enabling positive behaviour in the Waldorf lower and upper School
- the Waldorf School lower and upper school curriculum

This includes:

- the changing roles of early childhood, lower and upper school educators
- Rudolf Steiner's theories of child development and the connection to key aspects of the Waldorf School curriculum in the Lower School and Upper School
- the pastoral role of the class teacher in the Waldorf Lower school (7-14 years) and the class guardian in the Waldorf Upper school (14-18 years)

Resources

- Room facilities appropriate to a variety of group learning modes
- Course hand-outs and library resources
- Case study materials
- Audio-visual resources
- Access to IT facilities

Assessment guidance

To ensure that the full range of knowledge, understanding and skills being developed in this unit can be demonstrated, a diversity of assessment methods which support the individual learner's holistic development is encouraged. The assessment criteria contain the expectation that critical thinking skills, understanding and application will develop progressively.

Learners will primarily be assessed through written assignment and self-reflective accounts, although other assessment methods may be used to demonstrate the learner's holistic development.

All assessment criteria must be achieved for learners to pass the unit. All assessment is carried out internally by tutor assessors on a pass or refer basis.

Unit 22: Introduction to Rudolf Steiner's Life and Ideas in relation to Waldorf Education

Unit reference	R/618/8021	Guided Learning Hours (GLH)	20
Unit level	4	Total Qualification Time (TQT)	60
Unit aim	This unit aims to support the learner's developing understanding of the Waldorf early childhood approach, by exploring some of the founding principles of Waldorf education. It introduces the learner to Rudolf Steiner's philosophy, biography, initiatives and indications for contemplative practice, in order to contextualise contemporary approaches to Waldorf early childhood education and care.		

Learning outcomes	Assessment criteria
The learner will:	The learner can:
1. Understand key concepts of Rudolf Steiner's philosophy	1.1. Describe key concepts of Rudolf Steiner's philosophy
	1.2. Describe Rudolf Steiner's principles of pedagogical practice
2. Understand key events in Rudolf Steiner's biography	2.1. Describe key events in Rudolf Steiner's biography
	2.2. Discuss initiatives developed by Rudolf Steiner
3. Be able to use self-reflective practice to develop an understanding of Rudolf Steiner's life and ideas	3.1. Use self-reflective practice to identify areas for further development in their own understanding of Rudolf Steiner's life and ideas

Additional requirements for delivery

The content of this unit will include the following topics:

- key concepts of Rudolf Steiner's philosophy
 - evolution of consciousness
 - reincarnation
 - path to birth
 - karma
 - three-fold and four-fold human being
 - the concept of ethical individuality
- key events in Rudolf Steiner's biography
- using self-reflective practice to develop an understanding of Rudolf Steiner's life and ideas, engaging with his philosophy in a personally independent way

This will include:

- the foundation and intention of Waldorf education.
- the development of initiatives such as:
 - eurythmy and the arts
 - anthroposophical medicine
 - therapeutic practice
 - agriculture
 - social initiatives

Resources

- Room facilities appropriate to a variety of group learning modes
- Course hand-outs and library resources
- Case study materials
- Audio-visual resources
- Access to IT facilities

Assessment guidance

To ensure that the full range of knowledge, understanding and skills being developed in this unit can be demonstrated, a diversity of assessment methods which support the individual learner's holistic development is encouraged. The assessment criteria contain the expectation that critical thinking skills, understanding and application will develop progressively.

Learners will primarily be assessed through written assignment and self-reflective accounts, although other assessment methods may also be used to demonstrate the learner's holistic development. These may include a practical presentation, portfolio of work-based evidence or witness statement.

All assessment criteria must be achieved for learners to pass the unit. All assessment is carried out internally by tutor assessors on a pass or refer basis.

Unit 23: Waldorf Early Childhood Teaching Skills in Principle

Unit reference	Y/618/8019	Guided Learning Hours (GLH)	20
Unit level	4	Total Qualification Time (TQT)	70
Unit aim	This unit introduces the learner to the essential teaching skills required in a Waldorf early childhood setting.		

Learning outcomes	Assessment criteria
The learner will:	The learner can:
1. Understand Waldorf early childhood teaching skills	1.1. Discuss teaching skills required of the Waldorf early childhood practitioner
2. Understand the Waldorf early childhood approach to child observation	2.1. Outline the Waldorf early childhood approach to child observation
3. Understand the Waldorf approach to early childhood assessment in the context of the current regulatory assessment requirements	3.1. Compare the Waldorf early childhood approach to child studies with current regulatory requirements

Additional requirements for delivery

The main topics covered in this unit are:

- Waldorf early childhood teaching skills, including planning the Waldorf School Early Childhood Curriculum, celebration of festivals, speech and gesture in early childhood and mixed age groups
- the Waldorf early childhood approach to child observation and assessment procedures
- the Waldorf approach to early childhood assessment

This includes the significance of:

- the practitioner's speech and gesture in early childhood
- the Waldorf approach to short, medium and long-term planning appropriate to stages of development and the individual child
- the value of mixed age groups
- how the enabling environment is a fundamental principle of Waldorf early childhood education
- the distinctive aspects of the Waldorf approach to child observation which must include the physical, emotional, cognitive and spiritual development of the child
- the use of the Waldorf "child observation" and "child study" in the context of formative and summative assessment
- how to carry out appropriate child observation practice
- the ability to recognise in practice the impact on children's learning and development of these teaching skills

Resources

- Room facilities appropriate to a variety of group learning modes
- Course hand-outs and library resources
- Case study materials
- Audio-visual resources
- Access to IT facilities

Assessment guidance

To ensure that the full range of knowledge, understanding and skills being developed in this unit can be demonstrated, a diversity of assessment methods which support the individual learner's holistic development is encouraged. The assessment criteria contain the expectation that critical thinking skills, understanding and application will develop progressively.

Learners will primarily be assessed through written assignment and self-reflective accounts, although other assessment methods may be used to demonstrate the learner's holistic development.

All assessment criteria must be achieved for learners to pass the unit. All assessment is carried out internally by tutor assessors on a pass or refer basis.

Unit 24: Waldorf Early Childhood Teaching Skills in Practice

Unit reference	F/618/8029	Guided Learning Hours (GLH)	10
Unit level	4	Total Qualification Time (TQT)	70
Unit aim	This unit aims to develop the learner's practical skills in the context of Waldorf early childhood care. The learner will have the opportunity to integrate their knowledge and understanding into their practice through Professional Placement in the early childhood setting.		

Learning outcomes	Assessment criteria
The learner will:	The learner can:
1. Be able to assess child development using a Waldorf approach	1.1. Carry out an observation of an individual child using a Waldorf approach
2. Be able to plan experiences which support holistic learning and development using a Waldorf approach	2.1. Create lesson plans which support holistic learning and development using a Waldorf approach
3. Be able to create an environment which supports holistic child development using a Waldorf approach	3.1. Create an environment which supports holistic child development using a Waldorf approach
	3.2. Create an environment in which adult-initiated and child-initiated activities are balanced

Additional requirements for delivery

The main topics covered in this unit are:

- The ability to use the Waldorf approach to child observation

- the ability to plan experiences which support holistic learning and development, using a Waldorf approach – this includes circle time, the use of music, storytelling, domestic and artistic activities
- the ability to provide experiences which support holistic learning and development, using a Waldorf approach
- the ability to create an environment using a Waldorf approach, which includes:
 - order and beauty
 - rhythm and repetition
 - imitation and example
 - the education of the will
 - the protection of the child's nerve-sense system and which encourages self-regulation
- the ability to recognise in practice the impact on children's learning and development of this approach
- an awareness of the balance of adult-initiated and child-initiated activities

Resources

- Access to Professional Placement at a Waldorf Early Childhood setting
- Hand-outs
- Access to library facilities

Assessment guidance

As this unit is primarily assessed whilst the learner is on Professional Placement, evidence will be primarily generated through tutor-observed practice, expert witness statements, portfolio of work-based evidence and reflective journal. Other assessment methods may be used to demonstrate the learner's holistic development.

All assessment criteria must be achieved for learners to pass the unit. All assessment is carried out internally by tutor assessors on a pass or refer basis.

Unit 25: Waldorf Early Childhood Curriculum Activities

Unit reference	R/618/8018	Guided Learning Hours (GLH)	20
Unit level	4	Total Qualification Time (TQT)	60
Unit aim	This unit introduces the learner to the knowledge and application of pedagogical, domestic and artistic activities within a Waldorf early childhood curriculum.		

Learning outcomes	Assessment criteria
The learner will:	The learner can:
1. Understand Waldorf early childhood curriculum activities	1.1. Discuss Waldorf early childhood curriculum activities and how they can contribute to a child's holistic development
2. Understand how to implement Waldorf early childhood curriculum activities	2.1. Explain how to implement Waldorf early childhood curriculum activities
3. Be able to use self-reflective practice to develop their own skills in delivering the Waldorf School early childhood curriculum	3.1. Use self-reflective practice to identify areas for further development in their own skills in delivering Waldorf early childhood curriculum activities

Additional requirements for delivery

The main topics covered in this unit are:

- Waldorf early childhood curriculum activities including circle time, storytelling, domestic and artistic activities
- How to implement Waldorf early childhood curriculum activities, including the role of music, storytelling, fairy tales and puppetry
- The ability to recognise in practice the impact on children's learning and development of these activities

- using self-reflective practice to develop own skills in delivering the Waldorf School early childhood curriculum

Resources

- Room facilities appropriate to a variety of group learning modes
- Course hand-outs and library resources
- Case study materials
- Audio-visual resources
- Access to IT facilities

Assessment guidance

To ensure that the full range of knowledge, understanding and skills being developed in this unit can be demonstrated, a diversity of assessment methods which support the individual learner's holistic development is encouraged. The assessment criteria contain the expectation that critical thinking skills, understanding and application will develop progressively.

Learners will primarily be assessed through written assignment and self-reflective accounts, although other assessment methods may also be used to demonstrate the learner's holistic development, such as tutor-observed presentations with practical demonstration of resources and artefacts; written accounts of group evaluation and reflection exercises and tutor-observed group discussion.

All assessment criteria must be achieved for learners to pass the unit. All assessment is carried out internally by tutor assessors on a pass or refer basis.

Unit 26: Arts and Crafts in a Waldorf Early Childhood Setting

Unit reference	A/618/8028	Guided Learning Hours (GLH)	30
Unit level	4	Total Qualification Time (TQT)	190
Unit aim	This unit introduces the learner to arts and crafts, including eurythmy, music, speech, two-dimensional art and handwork, which are used in a Waldorf early childhood setting.		

Learning outcomes	Assessment criteria
The learner will:	The learner can:
1. Understand the role of specified performance arts, two-dimensional art, handwork and crafts in an early childhood Waldorf setting	1.1. Analyse the role of specified performance arts and how to implement them in a Waldorf early childhood setting
	1.1. Identify ways in which two-dimensional art can be incorporated into the Waldorf early childhood curriculum and reflect on its value
	1.2. Identify ways in which handiwork and crafts can be incorporated into the Waldorf early childhood curriculum and reflect on their value
2. Understand Rudolf Steiner's theory of evolving consciousness expressed in the drawings of early childhood	2.1. Discuss Rudolf Steiner's theory of evolving consciousness as expressed in the drawings of early childhood
3. Use self-reflective practice to support the development of their own skills in performance arts, two dimensional arts, handwork and crafts relevant to a Waldorf early childhood setting	3.1. Reflect on their own engagement with performance arts, two-dimensional arts, and handwork/craft skills relevant to a Waldorf early childhood setting, identifying areas for your development

Additional requirements for delivery

The main topics covered in this unit are:

- the role of performance arts in an early childhood Waldorf setting, including:
 - eurythmy
 - music including the use of pentatonic music and music in the mood of the fifth
 - speech as a performing art
- how to implement performance arts in an early childhood Waldorf setting including the practice of eurythmy, mood of the fifth music and an introduction to playing the lyre
- the role of two-dimensional art and how to implement it in the Waldorf early childhood curriculum including wet-on-wet painting and crayon drawing
- the role of handwork and crafts and how to implement them in a Waldorf early childhood setting – this includes examples of both ‘hard’ and ‘soft’ handwork/craft
- the ability to recognise in practice the impact on children’s learning and development of these elements
- using self-reflective practice to develop your engagement with performance arts, two-dimensional arts, and craft skills, relevant to a Waldorf early childhood setting

Resources

- Room facilities appropriate to a variety of group learning mode
- Course hand-outs and library resources
- Case study materials
- Audio-visual resources
- Access to IT facilities

Assessment guidance

To ensure that the full range of knowledge, understanding and skills being developed in this unit can be demonstrated, a diversity of assessment methods which support the individual learner’s holistic development is encouraged. The assessment criteria contain the expectation that critical thinking skills, understanding and application will develop progressively.

Learners will primarily be assessed through creation of artefacts, written assignment and self-reflective accounts, although other assessment methods may be used to demonstrate the learner’s holistic development. These include: practical demonstration and witness statement.

All assessment criteria must be achieved for learners to pass the unit. All assessment is carried out internally by tutor assessors on a pass or refer basis.

Unit 27: Anti-discriminatory and Inclusive Practices in the Waldorf Early Childhood Setting

Unit reference	K/651/1856	Guided Learning Hours (GLH)	10
Unit level	4	Total Qualification Time (TQT)	70
Unit aim	This unit introduces the learner to anti-discriminatory and inclusive practices in Waldorf early childhood settings.		

Learning outcomes	Assessment criteria
The learner will:	The learner can:
1. Understand how to implement anti-discriminatory and inclusive practices in a Waldorf early childhood setting.	1.1. Explain how to implement anti-discriminatory and inclusive practice in Waldorf early childhood settings
2. Understand the Waldorf approach to anti-discriminatory and inclusive practices	2.1. Compare the distinctive aspects of the Waldorf approach to anti-discriminatory and inclusive practices with contemporary approaches

Additional requirements for delivery

The main topics covered in this unit are:

- Waldorf approach to anti-discriminatory and inclusive practices
- promoting and implementing anti-discriminatory and inclusive practices in a Waldorf early childhood setting
- the ability to recognise in practice the impact on children's learning and development of anti-discriminatory and inclusive practices

This should include reference to the concept of a universal humanity.

Resources

- Room facilities appropriate to a variety of group learning modes

- Course hand-outs and library resources
- Case study materials
- Audio-visual resources
- Access to IT facilities

Assessment guidance

To ensure that the full range of knowledge, understanding and skills being developed in this unit can be demonstrated, a diversity of assessment methods which support the individual learner's holistic development is encouraged. The assessment criteria contain the expectation that critical thinking skills, understanding and application will develop progressively.

Learners will primarily be assessed through written assignment and self-reflective accounts although other assessment methods may be used to demonstrate the learner's holistic development. These include: practical presentation, expert witness statement and literature review.

All assessment criteria must be achieved for learners to pass the unit. All assessment is carried out internally by tutor assessors on a pass or refer basis.

Unit 28: Working in Partnership with Others in a Waldorf Setting

Unit reference	L/618/8020	Guided Learning Hours (GLH)	10
Unit level	4	Total Qualification Time (TQT)	60
Unit aim	This unit introduces the learner to ways of working in partnership with parents, families, carers and colleagues in a Steiner Waldorf context.		

Learning outcomes	Assessment criteria
The learner will:	The learner can:
1. Understand the Waldorf approach to forming partnerships with families and carers and colleagues in the early childhood setting	1.1. Outline approaches to forming partnerships with parents, families and carers in a Waldorf early childhood setting
	1.2. Outline how to form partnerships with colleagues in a Waldorf setting
2. Understand approaches to conflict resolution in the Waldorf workplace	2.1. Discuss approaches to conflict resolution within the Waldorf workplace

Additional requirements for delivery

The main topics covered in this unit are:

The Waldorf approach to forming partnerships with parents, families and carers in the early childhood setting. This might include:

- parents' evenings
- home visits
- festival celebrations with parents and children
- approaches to effective resolution of conflict in the Waldorf workplace including an understanding of the four temperaments and other frameworks for understanding ourselves and others

Resources

- Room facilities appropriate to a variety of group learning modes
- Course hand-outs and library resources
- Case study materials
- Audio-visual resources
- Access to IT facilities

Assessment guidance

To ensure that the full range of knowledge, understanding and skills being developed in this unit can be demonstrated, a diversity of assessment methods which support the individual learner's holistic development is encouraged. The assessment criteria contain the expectation that critical thinking skills, understanding and application will develop progressively.

Learners will primarily be assessed through written assignment, self-reflective accounts and a portfolio of work-based evidence, although other assessment methods may be used to demonstrate the learner's holistic development.

All assessment criteria must be achieved for learners to pass the unit. All assessment is carried out internally by tutor assessors on a pass or refer basis.

Unit 29: Principles and Practices of Inspection in a Waldorf Early Childhood Setting

Unit reference	K/618/8025	Guided Learning Hours (GLH)	10
Unit level	4	Total Qualification Time (TQT)	70
Unit aim	This unit introduces the learner to principles and practices of inspection and recognition in an early childhood Waldorf setting.		

Learning outcomes	Assessment criteria
The learner will:	The learner can:
1. Understand requirements and process of inspection in an early childhood Waldorf setting	1.1. Explain requirements and process of Ofsted inspection in a Waldorf early childhood setting
2. Understand how to bring into practice the requirements of inspection bodies in an early childhood Waldorf setting	2.1. Explain how to prepare for an Ofsted inspection in a Waldorf early childhood setting
3. Understand the benefits of early years sector recognition to the Waldorf early childhood setting	3.1. Evaluate the benefits of Ofsted registration for a Waldorf early childhood setting
	3.2. Evaluate the benefits of recognition by relevant Waldorf organisations
	3.3. Evaluate the benefits of recognition by relevant Waldorf organisations including exemptions from aspects of the EYFS and the rationale for these exemptions

Additional requirements for delivery

The main topics covered in this unit are:

- the requirements and process of Ofsted inspection in a Waldorf early childhood setting
- implementing requirements and processes of inspection in a Waldorf early childhood setting
- benefits to the Waldorf early childhood setting of early years sector recognition requirements

Resources

- Room facilities appropriate to a variety of group learning modes
- Course hand-outs and library resources
- Case study materials
- Audio-visual resources
- Access to IT facilities

Assessment guidance

To ensure that the full range of knowledge, understanding and skills being developed in this unit can be demonstrated, a diversity of assessment methods which support the individual learner's holistic development is encouraged. The assessment criteria contain the expectation that critical thinking skills, understanding and application will develop progressively.

Learners will primarily be assessed through written assignment and self-reflective accounts although other assessment methods may be used to demonstrate the learner's holistic development. These include: portfolio of work-based evidence and literature review.

All assessment criteria must be achieved for learners to pass the unit. All assessment is carried out internally by tutor assessors on a pass or refer basis.

Unit 30: Reflections on Current Trends in Early Childhood Education: from a Waldorf perspective

Unit reference	Y/618/8022	Guided Learning Hours (GLH)	15
Unit level	4	Total Qualification Time (TQT)	70
Unit aim	This unit introduces the learner to current trends in early childhood education.		

Learning outcomes	Assessment criteria
The learner will:	The learner can:
1. Understand current trends in early childhood care and education and how the Waldorf early childhood practice is responding	1.1. Discuss current trends in early childhood education and evaluate how Waldorf early childhood practice is responding
	1.2. Discuss how Waldorf early childhood practice prepares children for literacy and numeracy
2. Be able to use self-reflective practice to develop their own understanding of current trends in early childhood education	2.1. Reflect on their own understanding of current trends in early childhood education

Additional requirements for delivery

The main topics covered in this unit are:

The responses of Waldorf early childhood practice to contemporary early years care and education issues including:

- the Early Years Foundation Stage
- the National Curriculum
- early introduction to literacy and numeracy

- early school entry
- the use of technology
- the use of assessment
- EYFS exemptions and the rationale behind them

Resources

- Room facilities appropriate to a variety of group learning modes
- Course hand-outs and library resources
- Case study materials
- Audio-visual resources
- Access to IT facilities

Assessment guidance

To ensure that the full range of knowledge, understanding and skills being developed in this unit can be demonstrated, a diversity of assessment methods which support the individual learner's holistic development is encouraged. The assessment criteria contain the expectation that critical thinking skills, understanding and application will develop progressively.

Learners will primarily be assessed through written assignment and self-reflective accounts, although other assessment methods may be used to demonstrate the learner's holistic development. These include: practical presentation; expert witness statement and literature review.

All assessment criteria must be achieved for learners to pass the unit. All assessment is carried out internally by tutor assessors on a pass or refer basis.

Unit 31: Inner Development

Unit reference T/618/8030 **Guided Learning Hours (GLH)** 50

Unit level 4 **Total Qualification Time (TQT)** 75

Unit aim This unit builds on the learning undertaken as part of Unit 18 to develop the learner's understanding of the importance of self-reflection and the inner development and spiritual path of the adult as a core pillar of pedagogical practice. It supports knowledge and skills development in this area and the learner to develop their awareness and capacity as a role model. As imitation and example is the foundation for effective practice of the Waldorf early childhood practitioner, the openness of the learner to explore this and to put knowledge into practice underpins all other units.

Learning outcomes	Assessment criteria
The learner will:	The learner can:
1. Know Steiner's ideas and selected contemporary theories on the self or ego	1.1. Describe some of Steiner's recommendations for self-development practice
	1.2. Compare and contrast Steiner's recommendations with one other approach
2. Be able to undertake artistic and practical exercises that support inner development and self-reflective practice	2.1. Participate in artistic and practical exercises that support inner development and self-reflective practice
3. Reflect on their own skills in delivering the Waldorf early childhood curriculum	3.1. Reflect on their own skills and practice in an Early Years setting
	3.2 Identify areas for further development of their own skills and practice
	3.3 Analyse the importance of self-reflective practice for the Waldorf early childhood practitioner

Additional requirements for delivery

This Unit forms a foundation to foster imagination, intuition and inspiration in all aspects of the learner's work as an early childhood practitioner.

Learners will explore different theories and methods relating to self-awareness and tools for personal growth. These methods will be considered, alongside Steiner's recommendations, as ways of supporting an understanding of the self, effective self-care and support as well as effective communication and connection with others.

Through a variety of practical and artistic activities for adult self-development, learners will engage in a process of developing self-awareness and spiritual development. Learners will be required to keep a journal and communicate an outline of the principles of one of the methods with which they have personally worked. They will identify areas for development in both personal and professional development.

A deeper understanding of how self-reflective practice supports effective working with young children will be developed and learners will reflect on real-life everyday experience, classroom practicum, curriculum practice as well as findings from their child study reflections.

- <http://www.couragerenewal.org/courage-to-teach/>

Assessment amplification

Be able to undertake artistic and practical exercises that support inner development and self-reflective practice

- 2.1 This includes journal entries concerning inner development and self-reflective practice, in relation to artistic and practical exercises. Must include at least 3 examples from practical experience in an Early Childhood setting.

Reflect on their own skills in delivering the Waldorf early childhood curriculum

- 3.1 This includes at least 6 journal entries reflecting inner development and self-reflective practice.
3.2 This includes examples from own practicum experiences.

Assessment guidance

To ensure that the full range of knowledge, understanding and skills being developed in this unit can be demonstrated, a diversity of assessment methods which support the individual learner's holistic development is encouraged. The assessment criteria contain the expectation that critical thinking skills, understanding and application will develop progressively.

Learners will primarily be assessed through written assignment and self-reflective accounts, although other assessment methods may be used to demonstrate the learner's holistic development.

All assessment criteria must be achieved for learners to pass the unit. All assessment is carried out internally by tutor assessors on a pass or refer basis.

Unit 32: The Seasonal Curriculum

Unit reference	A/618/8031	Guided Learning Hours (GLH)	30
Unit level	4	Total Qualification Time (TQT)	55
Unit aim	This unit builds on the learning in earlier units to develop the learner's understanding of the value of the seasonal curriculum for the holistic development of the young child. The learner will develop the specific knowledge and skills required to create a seasonal curriculum.		

Learning outcomes	Assessment criteria
The learner will:	The learner can:
1. Know reasons to have a seasonal curriculum in an Early Childhood setting	1.1. Give a rationale for a seasonal curriculum in an Early Childhood setting
2. Understand the value of a seasonal curriculum in an Early Childhood setting	2.1. Discuss the value of a seasonally-themed curriculum for the holistic development of the young child
3. Be able to plan a seasonal curriculum for an Early Childhood setting	3.1. Create a plan for a seasonally-themed curriculum for an Early Childhood group from 3- 5 years

Additional requirements for delivery

This unit provides an exploration of Rudolf Steiner's view of the seasons and the seasonal cycle as a living, breathing expression of the earth that is directly connected to the holistic development of the human being.

The short- and long-term benefits of a seasonal curriculum for the holistic development of the young child are explored including how these activities support development in the following areas:

- Physical
- Personal, social and emotional
- Speech, language and communication development
- Cognitive

- Neurological and brain development
- Spiritual

The learner will be guided to plan activities and a purposeful educational programme which includes:

- Communication and language (extending vocabulary, language structure, and dialogue, for example)
- Physical development
- Personal, social and emotional development
- Literacy
- Mathematics
- Understanding the world
- Expressive arts and design

Learners will need to ensure that the programme can fully reflect the stage of development, individual needs and circumstances of children aged 3-5.

Resources

Lecture notes and handouts will be provided.

WECAN. (www.waldorflibrary.org)

Jaffke, F. (2011) Celebrating Festivals with Young Children. Floris Books.

Overview of the Waldorf Kindergarten (vol 1) (1993) WECAN. (www.waldorflibrary.org)

Assessment amplification

Know reasons to have a seasonal curriculum in an Early Childhood setting

3.4 This includes:

- The seasonal breathing cycle of the earth and the human being's journey of becoming
- Rudolf Steiner's idea of human freedom
- Seasonal festivals as expressions of diversity, individuality and universality circle time

Understand the value of a seasonal curriculum in an Early Childhood setting

2.2 This includes:

- Short-term and immediate benefits of a seasonal curriculum of the young child's holistic development

- Consciousness of living and breathing cycles in the natural world and the implementation of a seasonal curriculum can set the foundations for personal and spiritual development in early childhood

Be able to plan a seasonal curriculum for an Early Childhood setting

3.1 This includes:

- Development of a single term plan that demonstrates the synthesis of individual curriculum components into a united, evolving expression of the breathing seasonal cycle of the earth. This will include the following:
 - Classroom Environment
 - Curriculum activities
 - Circle Time
 - Story Time
 - Nature Table
 - Celebration of festivals

Assessment guidance

To ensure that the full range of knowledge, understanding and skills being developed in this unit can be demonstrated, a diversity of assessment methods which support the individual learner's holistic development is encouraged. The assessment criteria contain the expectation that critical thinking skills, understanding and application will develop progressively.

Learners will primarily be assessed through written assignment and self-reflective accounts, although other assessment methods may be used to demonstrate the learner's holistic development.

All assessment criteria must be achieved for learners to pass the unit. All assessment is carried out internally by tutor assessors on a pass or refer basis.

Unit 33: Enhancing Skills and Practice for Storytelling, Puppetry and Circle Time

Unit reference	F/618/8032	Guided Learning Hours (GLH)	40
Unit level	4	Total Qualification Time (TQT)	65

Unit aim	This unit builds on the knowledge and skills developed in earlier units to increase the learner's range of skills in writing and telling stories and creating and performing puppetry. The learner will also gain competence in developing and using resources for leading circle time in an Early Childhood setting. Throughout the development of these skills and practice there will be a parallel development in understanding of the Waldorf pedagogy that places such importance on these activities.
-----------------	--

Learning outcomes	Assessment criteria
The learner will:	The learner can:
1. Be able to use a range of storytelling techniques in an Early Childhood setting	1.1. Demonstrate a range of storytelling techniques appropriate for an Early Childhood setting
2. Be able to use a range of story writing techniques in an Early Childhood setting	2.1. Demonstrate a range of story writing techniques appropriate for an Early Childhood setting
3. Be able to use a variety of puppetry techniques in an Childhood Years setting	3.1. Demonstrate a range of skills to make different kinds of puppets suitable for an Early Childhood setting
	3.2. Demonstrate a range of puppetry performance skills suitable for an Early Childhood setting
4. Be able to lead a circle time in an Early Childhood setting	4.1. Create a range of materials appropriate for use in circle time in an Early Childhood setting

Learning outcomes	Assessment criteria
The learner will:	The learner can:
	4.2. Lead a circle time in an Early Childhood setting

Additional requirements for delivery

This unit provides an exploration of the role of storytelling, story writing, puppetry and circle time to support the holistic development of the human being.

The purpose of these for the holistic development of the young child are explored including how these activities support development in the following areas:

- Physical
- Personal, social and emotional
- Speech, language and communication development
- Cognitive
- Neurological and brain development
- Spiritual

The learner will develop their skills in these activities and use these in the Early Childhood setting in ways that meet the learning and development areas of current EYFS curriculum requirements including:

- Communication and language (extending vocabulary, language structure, and dialogue, for example)
- Physical development
- Personal, social and emotional development
- Literacy
- Mathematics
- Understanding the world
- Expressive arts and design

Resources

Lecture notes and handouts will be provided.

Perrow, S. (2012) Therapeutic Storytelling. Hawthorne Press

Mellon, N. (2000) Storytelling with Children. Hawthorne Press

Bryer, E. Movement for the Young Child. WECAN. (www.waldorflibrary.org)

Jaffke, F. (2003) Toymaking with Children. Floris Books

Jaffke, F (2016) Lets Dance and Sing. WECAN. (www.waldorflibrary.org)

Udo de Haas (2017) The Singing Playing Hand WECAN. (www.waldorflibrary.org)

Ellersiek, W. (2003) Giving Love, Bringing Joy. WECAN (www.waldorflibrary.org)

Assessment amplification

Be able to use a range of storytelling techniques in an Early Childhood setting

1.1 This includes techniques that:

- Awaken imaginative perception of the story landscape and images
- Develop inspired connection to and enlivenment of story images
- Support skills for memorization of fairy tales
- Support skills for dramatic enactment of stories

Be able to use a range of story writing techniques in an Early Childhood setting

2.3 This includes story writing that:

- supports development of the imagination.
- uses appropriate language for children aged 3-7 years

They should include:

- rhythmical/rhyming and singing stories and plays
- nature stories
- remedial stories

Be able to use a variety of puppetry techniques in an Early Childhood setting

3.2 This includes making of:

- marionette puppets
- finger puppets
- puppet pocket aprons and pocket puppets
- moving pictures

3.3 This includes:

- Creating puppet theatre landscapes
- Creating appropriate puppet gestures
- Developing immersion into "story consciousness"
- The gestures of the puppeteer
- Making puppets for and performing a fairy tale using silk marionettes and standing puppets
- Performing a moving picture story
- Demonstrating puppet pocket apron stories
- Performing a class puppet show during the placement

Be able to lead a circle time in an Early Childhood setting

4.1 This includes:

- Creating their own hand gesture game which will support a sense of life and touch
- Creating their own action verse which will support a sense of movement and balance
- Creating their own singing game suitable for age 3-5
- Creating their own song in mood of the 5th
- Devising a movement journey for age 5-7

Assessment guidance

To ensure that the full range of knowledge, understanding and skills being developed in this unit can be demonstrated, a diversity of assessment methods which support the individual learner's holistic development is encouraged. The assessment criteria contain the expectation that critical thinking skills, understanding and application will develop progressively.

Learners will primarily be assessed through written assignment and self-reflective accounts, although other assessment methods may be used to demonstrate the learner's holistic development.

All assessment criteria must be achieved for learners to pass the unit. All assessment is carried out internally by tutor assessors on a pass or refer basis.

Unit 34: Supporting Children with Special Educational Needs and Disabilities (SEND) in an Early Childhood setting

Unit reference	J/618/8033	Guided Learning Hours (GLH)	40
Unit level	4	Total Qualification Time	65
Unit aim	This unit considers how a Waldorf Early Childhood practitioner can support and complement the work of a SEND practitioner. The learner will become familiar with terms used to describe a range of education needs and disabilities and focus on the importance of sensory integration for learning and healthy development of children in early childhood. The learner will also explore the value of creative play as a therapeutic tool to address and support specific challenges in social and emotional development.		

Learning outcomes	Assessment criteria
The learner will:	The learner can:
1. Know the type of support that can be provided for identified types of special learning needs and disabilities in a Waldorf Early Childhood setting	1.1. Give an account of different types of support that can be provided for physical, social and emotional special learning needs and disabilities in a Waldorf Early Childhood setting
2. Understand the importance of sensory integration for learning and development from birth to seven	2.1. Explain the importance of sensory integration for learning and development from birth to seven
3. Understand how creative play can support children with social and emotional difficulties from birth to seven	3.1 Explain the value of creative play in supporting children with social and emotional difficulties from birth to seven
	3.2 Evaluate how creative play can provide therapeutic benefits for children from birth to seven

Learning outcomes	Assessment criteria
The learner will:	The learner can:
4. Know how learning outcomes can and should be differentiated to account for special education needs and disabilities in an Early Childhood setting	4.1 Explain how learning outcomes can and should be differentiated to account for special education needs and disabilities in an Early Childhood setting
5. Be able to create an Individualised Learning Plan (ILP) for children identified with special educational needs and disabilities in an Early Childhood setting	5.1 Create an ILP for a child with SEND in an Early Childhood setting
	5.2 Implement an IEP for a child with SEND in an Early Childhood setting

Additional requirements for delivery

This unit ensures that learners develop an understanding of common special learning needs and disabilities in children from birth to seven. There will be a particular focus on autism spectrum condition (ASD) and attention deficit hyperactivity disorder (ADHD), including the recognition of possibly undiagnosed conditions.

Learners will become familiar with the importance of sensory integration and explore the use of activities, especially movement programmes, to address and improve balance, proprioception and sensory integration. Visual processing issues will also be covered.

Learners will study the therapeutic role of play in recovery and healing from social and emotional trauma for young children and how to support children in this type of therapeutic play.

The unit will conclude by developing learners' understanding of the need for differentiation in setting learning goals and outcomes and develop skills in creating and implementing Individual Learning Plans (ILPs).

Assessment amplification

Know the type of support that can be provided for identified types of special learning needs and disabilities in a Waldorf Early Childhood setting

1.1 This includes appropriate support for children with physical, social and emotional learning needs and disabilities.

Understand the importance of sensory integration for learning and development from birth to seven

2.1 This includes:

- signs that sensory integration is not as expected
- identifying what the underlying difficulty or disability might be
- proposing remedial actions that might be taken, including specific movement programmes

Understand how creative play can support children with social and emotional difficulties from birth to seven

3.1 This includes how play can be used as a therapeutic tool for children with identified social and emotional difficulties in both group and individual early childhood settings.

Know how learning outcomes can and should be differentiated to account for special education needs and disabilities in an Early Childhood setting

4.1 This includes responding to case study examples to differentiate learning outcomes.

Assessment guidance

To ensure that the full range of knowledge, understanding and skills being developed in this unit can be demonstrated, a diversity of assessment methods which support the individual learner's holistic development is encouraged. The assessment criteria contain the expectation that critical thinking skills, understanding and application will develop progressively.

Learners will primarily be assessed through written assignment and self-reflective accounts, although other assessment methods may be used to demonstrate the learner's holistic development.

All assessment criteria must be achieved for learners to pass the unit. All assessment is carried out internally by tutor assessors on a pass or refer basis

Section 3: Delivering this qualification

3.1 Requirements for Centres

As these are approaches to early childhood education, there are specific requirements for a Centre wanting to deliver this qualification. As part of the Qualification Approval process, the Centre must demonstrate that they have adequate resources and means of access for learners in terms of the following:

Resources:

All of the materials listed in the resources sections of the Tutor and Centre Guidance must be made available to learners.

Learners must be provided with access to: library facilities, with the full range of primary texts; all significant secondary sources; and any other recommended resources, such as videos or recommended reading.

Staff

Centres must also demonstrate that they have staff in place that meet the following professional criteria (in circumstances in which the qualifications are equivalents, please discuss these during the qualification approval process):

Tutor Assessors must hold a Montessori- or Waldorf-related qualification at level 5 (or equivalent qualification) and have a minimum of three years post-qualifying Montessori or Waldorf teaching experience. They should also be able to demonstrate continuing professional development in a relevant field.

Professional Placement Mentor Leaders must have a minimum of three years post-qualifying Montessori or Waldorf early childhood experience and a DfE Full and Relevant Montessori or Waldorf early childhood qualification. They must also have a proven track record of undertaking continuing professional development.

Real Work Environment for the Professional Placement:

Centres must also have access to Professional Placement Settings for their learners that meet the following requirements:

Professional Placement Settings must have a trained Professional Placement Mentor Leader who meets the requirements outlined above. The setting should be recognised by Montessori or Waldorf or otherwise approved by CFI awarding.

Safeguarding:

To support early years settings, the UKCIS Education Working Group has developed two documents to help early years settings managers and staff consider their practice and to take steps to safeguard both children and adults online. To access the

documents, please visit: www.gov.uk/government/publications/safeguarding-children-and-protecting-professionals-in-early-years-settings-online-safety-considerations.

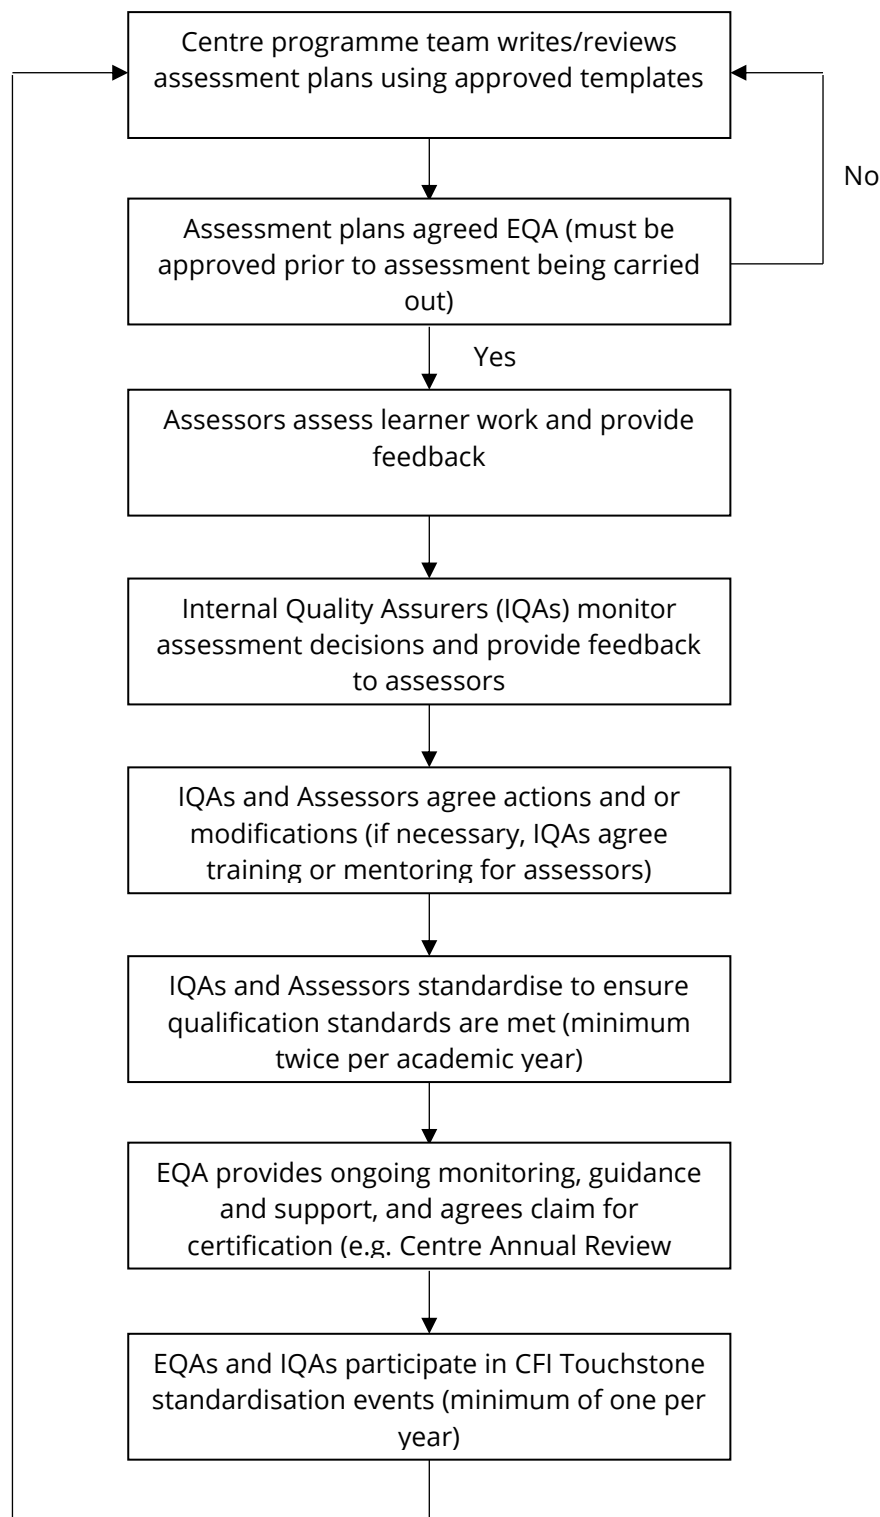

For more information about the process of becoming a centre, please contact us at info@cfiawarding.com

3.2 Quality Assurance

The CFI approach to quality assurance is underpinned by educational values which address the holistic development and transformation of the learner. In these qualifications teaching, learning and assessment should be interconnected in order to support each individual to reach his or her full potential.

The primary aim of the CFI Quality Assurance Team is to support centres in delivering the best possible learning experience and high levels of achievement for learners. Centres will be allocated an External Quality Assurer (EQA) by the CFI QA Team.

Centres delivering this qualification are required to follow this CFI Quality Assurance process:

3.3 Assessment Approach

The units have been designed to support learner-centred approaches, which encourage learner investigation, enquiry and reflection, alongside time for tutorials to reflect on learning and discuss the content and assessment requirements. The delivery process should be based around a facilitation method, which should create a supportive and dynamic environment, designed to inspire learner participation, enquiry and learning.

There is a significant amount of independent study within this qualification, and assessors should ensure that learners receive guidance and support on how to best make use of their study time. Independent study should be supported by structured home study and a variety of resources. The learner should also have access to tutorial support to engage in self-assessment throughout the units to allow them to monitor their understanding.

3.4 Assessment Strategies for this qualification

The key requirements of the assessment strategies or principles that relate to units in this qualification are summarised below. Centres need to ensure that individuals undertaking assessor or quality assurer roles within your Centre meet CFI assessment requirements for the unit they are assessing or quality assuring.

Assessment Strategy

The **Assessment Strategy** provides a rationale for the relationship between the learning and teaching processes used in the units, the learning outcomes and the methods of assessment used.

Learners submit a portfolio of evidence for this qualification. This portfolio is internally assessed against each unit's assessment criterion on a pass or refer basis, by tutor assessors. The Centre and these assessors are responsible for ensuring the following:

- that all assessments are fit for purpose, valid, and reliable, as well as innovative and varied. This includes ensuring that assessment methods suit the assessment criteria, and that whenever possible the context of the assessment prepares learners for employment
- that assessment is a balanced part of learning and teaching and that it supports the learner's professional development towards working as a Montessori or Waldorf practitioner
- that assessment tasks take advantage of opportunities for holistic assessment (an example of how this could be done is in the Sample Assessment section of the Tutor & Centre Guidance document), as this suits the principles of the qualification and the role for which this qualification prepares learners

Requirements for Assessors and Internal Quality Assurers

- Assessors will need to be both occupationally knowledgeable and qualified to make assessment decisions
- Internal Quality Assurers will need to be both occupationally knowledgeable and qualified to make quality assurance decisions

3.5 Assessment Planning Guidance

This qualification uses a centre-devised approach to assessment. In planning their assessments, centres should ensure that assessment activities:

- are fit for purpose
- can be delivered efficiently
- meet the assessment criteria
- permit Reasonable Adjustments to be made, while minimising the need for them
- allow each learner to generate evidence which can be authenticated

- allow the specified level of attainment detailed in this specification to be reached by a learner who has attained the required level of knowledge, skills and understanding
- allow assessors to be able to differentiate accurately and consistently between a range of attainments by learners

They should also ensure that:

- sufficient time is allowed for assessment planning
- assessment tasks do not produce unreasonably adverse outcomes for learners who share a common attribute
- methods of assessment are in line with the assessment requirements in this specification
- reasonable timescales for assessment and feedback are given to learners
- a timely quality assurance process is conducted

3.6 Training and Support

To support centres in carrying out high-quality assessment and quality assurance practice, the following training and support measures have been put in place for this qualification:

- All centre assessors and quality assurance staff for this qualification are required to meet National Occupational Standards for assessors and IQAs. National qualifications (NVQs) are available for these roles. CFI awarding can also provide customised assessor and IQA education as well as review of assessor and IQA practice
- Assessors and IQAs must keep an up to date CPD log and be able to demonstrate the relevance of their CPD to this qualification and their role
- Handbooks, exemplars and templates are available from the CFI QA Team
- Where required, a customised Quality Assurance Action and Development Plan will be provided by CFI for centres

Please note: there may be a charge for training and resources provided by CFI.

3.7 Policies and Procedures

Each centre is required to work in partnership with CFI to ensure that all learners have the best possible experience whilst taking this qualification and are treated fairly. Our commitment to this is supported by our Centre Handbook, which all centres should become familiar with.

CFI has policies and procedures in place to support centres and learners. All centres must also implement their own policies, which comply with CFI's requirements – these will be checked during centre approval and in subsequent centre monitoring activities. It is the centre's responsibility to make relevant policies available to learners.

Relevant policies include:

- Learner Complaints Policy: which allows learners to take action if they feel they have been treated unfairly
- Learner Appeals Policy: which allows learners to appeal decisions made by centres
- Reasonable Adjustments Policy: which allows centres to make any necessary adjustments to assessments in the light of learners' individual circumstances at the start of the programme.
- Special Considerations Policy: which allows centres to request extensions for learners in light of learners' individual circumstances which have delayed their completion of the programme
- Malpractice and Maladministration Policy: which gives a framework through which concerns about the delivery and assessment of the qualification can be addressed
- Equality and Diversity Policies: which ensures centres treat learners fairly and without any bias

CFI Policies, and other key documents, are available on our website at www.cfiawarding.com or upon request via info@cfiawarding.com
